Does this bring you
to your eye? How I
love your native land!
We have had the most
beautiful of summers - how
you would have enjoyed
being here! They say London
is the gayest city in the
world now - it certainly
seems so to me. Have been
having a jolly good time - and
staying with Mr. James. Have
not heard anything from H. Goodson.
She is very much engaged with radio
and is also with the various symphonies.
Hope this finds you well. My love to you both. Virginia Peterson
